IMPORTANT INFORMATION ABOUT YOUR RATES

On June 3, 2005, Arizona-American Water Company requested a rate increase in its Paradise Valley District from the Arizona Corporation Commission ("ACC"). The ACC issued a Decision on July 28, 2006, authorizing a 3.93% rate increase to be effective August 1, 2006. Additionally, a new "High Block" surcharge was implemented in the amount of \$2.15 per thousand gallons applicable to residential customers in a month with consumption over 80,000 gallons and applicable to commercial customers in a month with consumption over 400,000 gallons.

The exact increase in your monthly bill will vary depending on the customer class to which you belong, the amount of your monthly consumption and the size of your water meter. As an example, a residential customer with a 5/8 x 3/4-inch meter and average usage of 22,193 gallons per month would see a 7.13 percent increase in his/her monthly bill. If you have any questions about this rate increase, please call our call center at 1-800-492-8373.

This is the first rate increase in your water district since 1998, whereas the Consumer Price Index increased over 20% during these years. The present rate increase is primarily due to capital investments specifically in your community to improve water flow capability from fire hydrants.

The rates and charges will be as follows for service rendered on or after August 1, 2006:

Service Charges: **Per Meter Per Month**

For 5/8-inch meter	\$ 9.50
For 3/4-inch meter	\$ 9.83
